

## Fork-Liftable Caged Cart

This unit is a perfect solution for order picking in warehouses and distribution centres. The unit is designed in a manner that allows it to be lifted easily with a forklift, reducing manual intervention from associates.

### Features:

- Constructed of all steel, with powder coated gray body and powder coated yellow shelves
- Enclosed on three sides
- D-shaped handles in front
- Shelves can be folded and placed at the back
- Maneuvers easily on 6" swivel polyurethane with brakes.

### Benefits:

- All steel construction gives a sturdy structure and allows for extensive use in harsh conditions
- Metal enclosure on three sides provides protection against damage to items
- Ergonomic placement of D-shaped handles allows the unit to be pushed around easily, without much effort
- 6" swivel polyurethane wheels makes the cart mobile
- The ability to lift the cart with a forklift reduces movement wastage and saves time
