

Fresh pineapple ready to go

Isla

zummo

NEW

Isla

by Zummo

Designed and manufactured in Spain

Isla by Zummo provides consumers with a unique experience, by quickly and easily preparing a fresh pineapple that is ready to eat anywhere you want.

You will be creating new sensations for your customers while guaranteeing the very best quality of your offer. Isla will boost your earnings by including high technology to your business.

Isla has arrived to give an about-turn to the way we eat natural pineapple. Why will it be a success in your business? Because it is quick, easy to use, safe and profitable.

In just 15 seconds Isla cuts off the crown, removes the peel and the core of the pineapple, and then cuts it into slices, chunks or sticks. Fresh and ready to go!

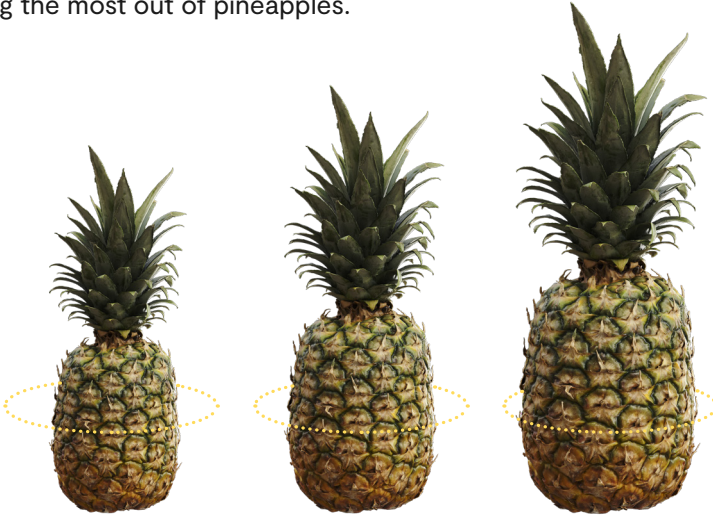

Fresh pineapple

New design.
It will give your business a more modern look.

Three pineapple sizes

Adaptable to different sizes.
Getting the most out of pineapples.

Caliber 9-10

Caliber 7-8

Caliber 5-6

Three cutting options

Isla can cut pineapples in slices, sticks or chunks. Make your business stand out from the rest by offering innovations to your customers.

Slices

Chunks

Sticks

Fresh, natural and sustainable.

With Isla you will be looking after the planet while guaranteeing a sustainable image of your premises. The new biodegradable packaging does not produce any harmful waste, nor does it pollute the environment. Our packaging will feed the planet and catch the eye of your customers.

A new natural paradise

With Isla you will experience all the freshness of pineapple.

Compact Design

Isla has a solid, compact design. It comprises a single block to guarantee that it remains sealed to prevent any foreign bodies from entering.

NEW

Zummo Cloud

Geolocation

Easily and effectively manage where your machines are.

Productivity indicators

Increase the profitability of your business with the main consumption and performance indicators.

Status indicators

Know the status of your machine at all times in order to provide your customers with the very best service and interact with Isla to change its status wherever you may be.

Preventive and predictive maintenance

Increase the life of Isla and pineapple quality by constantly monitoring the most important parameters.

Isla is customisable

You decide what your Isla will look like. Our new model will quickly and easily adapt to your establishment. Customise the graphics and stickers to fully match the aesthetics of your business.

Isla will be the difference in any supermarket, greengrocer or food store.

- Increase your shop's profits.
- A wonderful claim for customers.
- Very easy to use and maintain.
- Simple, elegant aesthetics.
